

AGM April 2020

Webmaster Report

The ASPRA website, increasing complex and difficult to maintain, was replaced in late 2019 with a new site, new url (www.aspra.uk) and additional email addresses to match. Our thanks to our councillors for funding for this development and ongoing licences.

Minor hiccups aside, the new site is certainly easier and faster to update and maintain. Built using the very popular Wordpress, the decision to keep ASPRA requirements limited to what was easily available in the product has served us well. The old ASPRA website is still available and will be retained, with a link from the new site, until the information is transferred or no longer required

The changes mean that the technical skills needed are reduced and the focus can now be on the content and presentation. A new Webmaster (Annie) stepped forwards to take over the Webmaster role. This new approach has proved to be very useful in the current situation and closer working between the hardworking ASPRA Facebook and Website volunteers has been very visible.
