

ASPRA website update September 2021

We continue to update the ASPRA site with the latest ASPRA news, magazines and local information. The pages we most update are:

[The member updates](#) (copied from Dave's member emails)

[The magazine](#)

The homepage slider which links to the pages most recently updated.

If there are any edits or updates you would like added to any part of the site, especially the ['What we do' pages](#), please do send them to me on webmaster@aspra.uk

We have been tracking visits to the website since March on Wordpress, but aren't yet convinced they are accurate, so won't be reporting on them this month.

On the tech side the website continues to perform as expected. Occasional minor issues arise when part of the system is automatically upgraded and other things fail, but these have been quickly resolved once discovered.

Annie and Dave
