

ASPRA website update AGM 26th April 2022

We continue to regularly update:

- [the member updates](#) (copied from Dave's member emails)
- [the magazine](#)
- the project pages:
 - o [Addiscombe Rec Gardening](#)
 - o [Addiscombe Litter Action](#)
- [the local events page](#)
- and the homepage slider which links to the pages most recently updated.

We have now had the statistics for the site enabled since September, so have seven months stats to review. They show us that:

- The site has had around 3,700 unique visitors since September
- Top pages (by number of visits) were the homepage, Meetings list and 'About ASPRA' page
- The majority of users access the site on a desktop or laptop: a third on Windows and a quarter on OS X and a small number on Linux operating systems. The rest are on mobile: A third of users access the site on Android and a further tenth on iOS.

If there are any edits or updates you would like added to any part of the site, especially the '[What we do](#)' pages, please do send them to me on webmaster@aspra.uk
