ASPRA AGM 2022 Membership and Postmaster Report 2021-22 'ASPRA' year

2021, as we are all only too aware, continued to provide challenges in terms of meeting and mixing with friends, neighbours and colleagues. Despite this, and thanks to our hardworking Road Reps, membership renewals and new members have remained healthy. The number of direct to bank payments continues to increase, which has been a great help. Many members also choose to add something to directly support ASPRA projects (lights, hanging baskets and poppies) which is most welcome.

Membership currently stands at 819 from our total of 1928 households across the ASPRA area.

Maintaining contact with the 691 email addresses that members have shared has been, generally speaking, much less prone this last year to anti-spam robots. Careful choice of words that seem to cause issues, and splitting the list into groups of approx. 40 at a time is a bit of an overhead but does avoid having to check failed messages and resend.

It is hoped that emails sent continue to be both relevant and timely, information is coordinated with both the ASPRA Facebook and Website sites to get the right information in the most appropriate place(s).
