

Projects Report for June 2022

This year's hanging baskets went up a few days before the Queen's Jubilee bank holiday weekend, giving them a chance to settle. Whilst not quite the jubilee colours I was expecting they are doing well and make a beautiful display. As I am writing this we are still very much in a heat wave but the baskets look like they are coping, perhaps with extra watering from CJS Plants.

Poppies and festive lighting are on schedule for later this year.
