

June 2022

Membership Secretary / Postmaster Update

Membership

The subscription issue of the ASPRA magazine contains membership joining / renewal information and is distributed to all households in the ASPRA area. The magazine has been unavoidably delayed this year which has thus resulted in a low number of renewals, mostly from those members with standing orders. Some direct bank payments have also been received, but the main flurry of activity will be after the magazine is available and been distributed, so I now expect reps and myself will be busy from early July.

Currently 86 so far renewed for 2022-23.

Additional donations have been made as a part of the above, much appreciated as always.

Postmaster

Ongoing distribution of emails continues, still issues with several of the 'email providers' who are now logging ASPRA messages as Spam/Junk or just rejecting them, often with no error messages back to the sender.

Adding the ASPRA email addresses to individual's contact lists does provide some help with this. If you believe you are not receiving ASPRA emails do send something to contact@aspra.uk which should work from 'your end' and we can investigate in more detail.
