

Gardening Report for June 2022

The regular monthly gardening sessions have taken place.

A tree planting to celebrate the Queen's Jubilee will take place later this year. The purchase of an acer has been suggested.

Addiscombe Fruit and Veg have kindly offered to donate a fruit tree for the gardens.

There is currently an issue with the water pipe which was reported to ASPRA several times. The council were quick to make a repair that stopped the water leaking. Dave has done a temporary fix so the hose can be used to water the plants. Steve will investigate what is required when he returns from the med.

As Saturday mornings may not always be a convenient time for volunteers to help in the gardens, it has been suggested a WhatsApp group is set up so that gardeners can let others know if they plan to go to the park and do some weeding etc at times outside the scheduled sessions. Anyone wishing to be added to the WhatsApp group please email gardening@aspra.uk with your mobile number.
