Report for 2024

Membership for the year settled at 725, down on last year, with the usual early and late payments throughout the year. The majority came through in the 'expected' two months immediately after the AGM. Another increase in the average donation per member made towards ASPRA projects. Just over £3.70 on top of the £4 subscription. Thanks to all for continuing to support these Community projects. Huge thanks also due to our 32 reps covering the 40 roads in the ASPRA area, distributing envelopes and magazines and collecting in and managing all of the subscriptions and associated donations..

Circulating to 'in excess of 700' email addresses was ongoing throughout the year, as appropriate information became available. Email continues to be the most practical and manageable way of getting relevant info to all or some of our members, some messages specifically for only one of our two council wards, or for a specific group of roads.
